## CA18129 RULES

In the **CA18129** Second Management Committee Meeting celebrated in Lisbon on June 4, 2019, MC Members discussed the internal CA18129 procedure to admit new participants in the Action. According to the decision unanimously taken at that meeting, new entries of individuals to the Action are made by the actual participation of researchers in any of the activities that are scheduled in the Action's Working Plan. Once a researcher sends a paper/participation proposal to one of the Action's activities and it is accepted, the researcher can become part of the Action. The same applies to researchers associated to the local or scientific organization of any of these activities. In consequence, **the application procedure would be by requesting participation in any of the activities that are planned for the coming years.** This can be done once calls for papers are opened. A schedule of the activities can be found in the Action's website: [www.is-le.eu](http://www.is-le.eu).

Once the researcher's participation in the activity has been approved, he/she might be considered to join the Action and will be subject to Action MC approval if they wish.
